**Subject:** RE: West Lake Comments

Doug, thanks for forwarding these comments. Thus far the region has Dave's comments below plus Stuart's and Charles' comments on the sixth workplan (groundwater fate and transport). Are there additional comments from anyone on the HQ review team for the first five workplans? If so, please forward them so that we can proceed towards a meeting of HQ, the Region, the State of Missouri, and the PRPs to discuss the comments and move forward with the NRRB's requested work.

Sincerely,  
Daniel R. Gravatt, PG  
US EPA Region 7 SUPR/MOKS

Phone (913)-551-7324

Principles and integrity are expensive, but they are among the very few things worth having.

Doug-

Please find the attached file with my comments on the Cover and F&T Scopes of Work. Thanks for your patience. If Region 7 has any comments or would like to seek any clarification, I would be more than happy to do so after I return on August 12.

Dave
